

**This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.**

Courtiers Ethical Value Equity Fund is a sub-fund of Courtiers UCITS Investment Funds ICVC and is categorised as a UCITS scheme. This Fund is managed by Courtiers Asset Management Limited ("the ACD"), part of the Courtiers Group.

### Objective

- The Fund aims to achieve Capital Growth and Income from a portfolio of global company shares over a period of between 5 and 10 years. Only shares aligning with the negative screen applied by Courtiers Ethical Screening Criteria will be considered permissible investments for the fund.

### Policy

- The Fund will invest at least 90% of its assets in global shares and is expected to have between 30 and 50 individual company shares and will gain exposure to a broad range of sectors in different geographic areas.
- The fund provides an opportunity for those who wish to invest in alignment with Courtiers Value Investing ethos but who prefer a restricted universe of permissible investments.
- Permissible investments** must adhere to the restrictions applied by the Courtiers negative (exclusionary), Ethical Screening Criteria which are determined based upon any negative social and environmental impact the excluded areas have and/or appear to have. Each individual investor needs to determine whether the screen applied to the fund aligns with their own investment and ethical principles.
- The Fund is expected to have between 30 and 50 individual company shares. All stocks within the fund are listed on the MSCI World IMI Index and will gain exposure to a broad range of sectors in different geographic areas. There may be an overlap of holdings between Courtiers existing Equity Funds and the Ethical Value Fund provided the holdings meet the Courtiers Ethical Screening Criteria.
- If a position is held within the fund and subsequently found to be in breach of the Courtiers Ethical Screening Criteria, this will be sold from the fund at the earliest opportunity.

- The Fund may also invest in other investment funds, investments issued by banks or governments that are a short-term loan to the issuer by the buyer, warrants, cash, and deposits. These investments will also be required to align with the Courtiers Ethical Screening Criteria. The Fund is actively managed, this means that the Fund Manager will select investments to achieve the Fund's objectives & policy. The Fund is not constrained by a benchmark.

- Derivatives** (investments whose value is linked to another underlying investment such as shares or performance of a stock exchange) may be used in limited circumstances to reduce risk or cost and/or to generate extra income and growth. Any derivative used will be required to meet the ethical screening criteria. If the ethical credentials of the derivatives cannot be ascertained these will not be permissible investments for the fund.

- Accumulation Shares:** any income from investments held by the Fund (dividends) will automatically be reinvested into the value of the Fund on the last day of the relevant interim and/or annual distribution period. This is reflected in the price of an Accumulation Share.

- You can buy or sell shares in this Fund on any UK business day. Instructions must be received and accepted by Courtiers before 3pm in order for a deal to be placed at the price calculated on that day. Instructions received and accepted after that time will be dealt with at the price calculated on the next dealing day.

- This Fund is appropriate for a retail investor, with an investment horizon of between 5 and 10 years, and who is prepared to accept some risk. The investor will need to determine whether the Courtiers Ethical Screening Criteria applied aligns with their own investment preferences and principles.

### Risk & Reward Profile

- The Synthetic Risk and Reward indicator (SRRI) is based on historical data. As this is a new Fund, the SRRI is based on the volatility of investments similar to those the Fund is invested in. This may not be a reliable indication of the Fund's risk and reward category in the future.
- The Fund is in category 6 as it invests in company shares which generally provide higher rewards and higher risks. Company shares tend to experience higher volatility than other investments such as money market instruments or cash.
- The Fund's category is not guaranteed to remain the same and may change over time.
- The lowest category (1) does not mean a 'risk free' investment.
- The value of your investment and any income you take from it may fall as well as rise and is not guaranteed. You might get back less than you invest.

The indicator does not fully take account of the following risks of investing in the Fund:

- The Fund may be concentrated both in number and in location of securities in which it is invested. This means that losses arising may cause a proportionately greater loss to the Fund than if a larger number of investments were made.
  - Investing in equities involves risks associated with unpredictable drops in a stock's value or periods of below-average performance. The price of shares may also fluctuate. Such fluctuations, or volatility, have historically been much greater for equity markets than other markets, such as bond markets.
  - The Fund has exposure to a number of different currencies. Changes in exchange rates may adversely affect the price of shares you hold within the Fund.
  - As one of the objectives of the Fund is to provide income the ongoing charge of the Fund is charged against capital rather than income, this will enhance income returns but may erode capital and constrain future capital growth.
  - In adverse situations, the use of derivatives to reduce risk and/or costs in the Fund and to generate extra income may no longer be effective and the Fund may suffer a loss.
- For more details about the Fund's risks, please see the Risk Factors Section in the Fund's Prospectus.

### Charges for this Fund

- The charges you pay are used to pay the costs of running the Fund, including the costs of marketing, and distributing it. These charges reduce the potential growth of your investment.
- The Fund does not currently apply an **initial** or **redemption** charge. However, the ACD has the discretion to introduce such charges at some future date.
- The **ongoing charges** figure for the R Accumulation Share Class of this Fund is set at a maximum level, which is the figure shown. The Fund's annual report for each financial year will reflect this charge
- Ongoing charges exclude the costs associated with buying and selling the underlying investments of the Fund.
- For more information about charges, please see the Fees and Expenses section in the Fund's Prospectus.

One-off charges taken before or after you invest	
Initial Charge	None

Charges taken from the under certain specific conditions	
Performance Fee	None

### Past Performance

- Past performance is not a guide to future returns.
- The performance figures shown are based on the net asset value of the Fund per calendar year. They are also calculated on the basis that any distributable income of the Fund is reinvested and are net of all charges.
- The Fund was launched on 3<sup>rd</sup> November 2022.
- Share Class launch date: 3<sup>rd</sup> November 2022.
- The base currency of the Fund is pound sterling, which is the currency performance figures have been calculated in.
